

CITY OF FORT LAUDERDALE UPDATE

UPDATE ON SEWER MAIN REPAIR ACTIVITIES IN FORT LAUDERDALE

December 27, Noon

Following is an update on sewer main repair activities on a 16-inch line on NE 5 Street in Victoria Park, a 54-inch line on SE 10 Street along the north side of Virginia Young Park in Rio Vista, and a 48-inch line in the Himmarshee Canal in Beverly Heights. In addition, below are updates on ongoing cleanup and remediation efforts in the Hector Park area along Ponce de Leon Drive in Rio Vista.

Operations in Victoria Park

-At approximately 7:30 a.m. this morning, a 16-inch sewer main break occurred on NE 5 Street between NE 16 Avenue and NE 17 Avenue in the Victoria Park neighborhood.

-Crews are on site responding to the break. Pump stations servicing the line have been shut off. The flow out of the pipe has stopped and discharge is no longer entering the street.

-Vacuum and tanker trucks are removing water from the street. Once the water is removed, crews can begin digging around the break area to expose the pipe and assess the extent of the damage.

-NE 5 Street is closed from NE 16 Avenue to NE 17 Way. Motorists are advised to avoid the area and seek alternate routes.

-Crews from Cliff Berry, Inc. (CBI) will be on site this afternoon to conduct cleanup activities in the affected area along NE 5th Street.

-Neighbors in the affected area should avoid contact with standing water. If contact is made, please remember to follow proper hygiene procedures. Wash your hands with soap and warm water or an alcohol-based hand sanitizer immediately after contact with wastewater, especially before preparing or eating food. Operations in Virginia Young Park

-The bypass line continues to function properly with all sewage flow fully contained within the system.

-Staff continues to monitor pressure and flow in the bypass line and wastewater collection system.

-Work continues on removal and replacement of the damaged section of 54-inch pipe.

-Crews from Cliff Berry, Inc. (CBI) will continue remediation activities today including cleaning and pressure washing streets, sidewalks, and driveways in the affected area.

-Stormwater staff will continue to conduct clean catch basins and storm drains in the affected area.

-Virginia Young Park remains closed while repair activities are taking place.

-Neighbors are reminded that the area in and around Virginia Young Park is an active construction zone.

-For the safety of everyone, access to the construction zone is limited to appropriate operational and management personnel.

Operations in the Himmarshee Canal

-During the overnight hours, divers made adjustments to the valve device around the submerged 48-inch pipe in the Himmarshee Canal to address intermittent dripping.

-The valve device and seal will continue to be monitored throughout the day today to check stability and functionality.

-Three aerators continued to operate at points along the Himmarshee Canal to help improve water quality.

-Neighbors are reminded that the Himmarshee Canal from S. Federal Highway to the New River remains under a precautionary advisory for recreational water-related activities. Swimming, fishing, jet-skiing, paddle-boarding, kayaking, canoeing, or engaging in any water-related activities within the precautionary advisory area should be avoided.

-To view a map of the precautionary advisory area, please visit <http://bit.ly/35l0DuC>.

Cleanup and Remediation of Ponce de Leon Drive/Hector Park Area

-CBI will continue to conduct cleanup, pressure washing, and deodorizing activities where needed on Ponce de Leon Drive and in the area around Hector Park.

-Stormwater staff will continue to inspect tidal valves and cleaned and cleared catch basins and storm drains in the affected area.

-Hector Park remains closed to the public.

-Equipment and materials continue to be removed from areas in and around Hector Park as part of the cleanup and demobilization effort.

Environmental Activities

-Crews from CBI will begin conducting air lancing activities today in the Tarpon River to help break down the organic material that was discharged into the waterway.

-14 aerators will continue to operate 24/7 to help improve water quality in the Tarpon River, New River, and Himmarshee Canal.

-Boats will continue to patrol the canal system in and around Rio Vista and in the Himmarshee Canal conducting skimming and debris removal on the waterways.

Road Closures in Rio Vista

-Roads in the immediate vicinity of Virginia Young Park are closed including a portion of SE 10 Street east of SE 9 Avenue, as well as a portion of South Rio Vista Boulevard east of SE 9 Avenue.

-SE 9 Avenue is closed from south of the intersection at SE 8 Street to Ponce de Leon Drive.

-There is no access east of SE 9 Avenue at the intersections of SE 9 Street, SE 10 Street, South Rio Vista Boulevard, and the north side of Ponce de Leon Drive.

-Local access for residents of the area will be maintained where needed during the duration of the closure.

-To view a map of the road closures, please visit <http://bit.ly/34W91Q6>.

Safety Tips

-Neighbors in the affected area are reminded to avoid contact with any standing water.

-If contact is made, please remember to follow proper hygiene procedures. Wash your hands with soap and warm water or an alcohol-based hand sanitizer immediately after contact with wastewater, especially before preparing or eating food.

-Be sure to keep all children and pets away from any area affected by the wastewater spill.

-Keep a container or spray bottle outside residential entryways with a 90/10 solution (90% water to 10% household bleach) to clean shoes and other items that may have come into contact with wastewater.

Precautionary Advisory for Water-Related Recreational Activities

-A precautionary advisory for recreational activities in local waterways remains in effect.

-The boundaries are Broward Boulevard to the north, Poinciana Drive to the east, SE 15 Street to the south, and SW 18 Avenue to the west. Water-related activities including swimming, fishing, jet-skiing, paddle-boarding, kayaking, and canoeing should be avoided within these boundaries.
